- Aggregate debt and equity investment commitments of \$258.2 million
- Total gross investments funded of \$151.2 million, comprised of \$77.0 million across nine new portfolio companies and \$74.2 million across 16 existing portfolio companies
- Debt principal repayments of \$92.4 million
- Investment portfolio of \$677.2 million at fair value, an increase of 13.3% from Q2 2021
- Net asset value ("NAV") per share increased to \$14.70 from \$14.33 on June 30, 2021
- Declared a dividend distribution of \$0.33 per share for the third quarter, an increase of 13.8% from Q2 2021

## Year-to-Date 2021 Highlights

- Total investment income of \$58.6 million, an increase of 47.9% year-over-year
- Net investment income of \$28.5 million, or \$1.11 per share, an increase of 57.3% year-over-year
- Total gross investments funded of \$360.7 million, an increase of 162.3% year-over-year

Steven Brown, Chairman and Chief Executive Officer of Trinity Capital, commented, "We are continuing to execute against our plan, and driving excellent portfolio growth while enhancing our overall financial profile. Our performance is attracting world-class talent committed to building Trinity for the long term. We are growing NII at a strong pace and have delivered our sixth consecutive quarter of net portfolio growth. This NII growth has allowed us to once again increase our dividend. As we close out 2021, we believe we are positioned to continue to capitalize on this momentum. Trinity will continue to drive prudent portfolio growth seeking to maximize returns for our shareholders."

## Third Quarter 2021 Operating Results

For the three months ended September 30, 2021, total investment income was \$21.8 million compared to \$13.5 million for the quarter ended September 30, 2020. This represents an effective yield on the average debt investments at cost of 15.8% and 14.1% for the periods ended September 30, 2021, and 2020, respectively. Effective yields generally include the effects of fees and income accelerations attributed to early loan repayments and other one-time events and may fluctuate quarter-to-quarter depending on the amount of prepayment activity.

Total expenses, excluding interest expense, for the third quarter of 2021 were \$5.6 million compared to \$4.0 million during the third quarter of 2020. The increase was primarily attributable to higher D&O insurance expense following the Company's initial public offering, higher compensation associated with additional headcount and variable compensation related to annual bonus accruals, and higher expense for our new corporate offices in Phoenix. Interest expense for the third quarter of 2021 was \$5.1 million compared to \$3.9 million during the third quarter of 2020. The increase is primarily attributable to the higher debt outstanding under our 6.00% Convertible Notes due 2025 and newly issued 4.375% Notes due 2026, offset by lower debt outstanding under our Credit Facility.

Net investment income was approximately \$11.1 million, or \$0.42 per share based on 26.6 million basic weighted average shares outstanding for the third quarter of 2021, compared to \$5.6 million or \$0.31 per share for the third quarter of 2020 based on 18.2 million basic weighted average shares outstanding.

Third quarter 2021 realized net gains on investments were approximately \$0.7 million compared to a net realized loss of \$1.5 million during the third quarter of 2020.

Net unrealized appreciation was \$15.4 million during the third quarter of 2021, compared to net unrealized appreciation of \$8.2 million during the third quarter of 2020.

Third quarter 2021 net increase in net assets resulting from operations was \$27.2 million, or \$1.02 per share based on 26.6 million basic weighted average shares outstanding. This compares to a net increase in net assets resulting from operations of \$12.3 million or \$0.68 per share based on 18.2 million basic weighted average shares outstanding for the third quarter of 2020.

Trinity's higher weighted average share count for the three and nine month periods in 2021 as compared to prior year are the result of approximately 8.0 million shares of common stock issued in connection with the Company's initial public offering, approximately 227,000 shares issued under the dividend reinvestment plan, and approximately 593,000 shares issued in connection with restricted stock awards.

## Net Asset Value

As of September 30, 2021, NAV per share increased to \$14.70, compared to \$14.33 on June 30, 2021. The increase in NAV was primarily the result of the unrealized appreciation and realized gains recognized during the third quarter and investment income that exceeded the Company's declared dividend by \$0.09 per share. Total net assets at the end of the third quarter of 2021 increased by 5.1% to \$399.0 million, compared to \$379.7 million at the end of Q2 2021.

## Portfolio and Investment Activity

As of September 30, 2021, Trinity Capital's investment portfolio had an aggregate fair value of approximately \$677.2 million and was comprised of approximately \$468.9 million in secured loans, \$108.8 million in equipment financings and \$99.5 million in equity and warrants across 89 portfolio companies.

During the third quarter, the Company originated \$258.2 million of total new commitments. Loan commitments during the quarter totaled \$137.9 million, equipment financing totaled \$116.6 million and equity investments totaled \$3.7 million. Third quarter investments funded totaled approximately \$151.2 million, which was comprised of \$77.0 million of investments in nine new portfolio companies and approximately \$74.2 million of investments in 16 existing portfolio companies. The Company continues to shift its portfolio to floating rate loans with approximately 60.0% of its debt portfolio at floating rates on September 30, 2021, compared to 49.3% as of June 30, 2021.

Proceeds received from repayments of the Company's debt investments during the third quarter totaled approximately \$92.4 million, which included \$73.6 million from early debt repayments of which \$40.9 million was from secured loan repayments and \$32.7 million was from equipment financings. In addition, the Company received \$0.8 million from the sale of equity investments in two portfolio companies. The portfolio increased by \$64.2 million or approximately 11.2% on a cost basis, and by \$79.6 million or approximately 13.3% at fair value as compared to June 30, 2021.

As of the end of the third quarter, loans to two portfolio companies were on non-accrual status with a total fair value of approximately \$7.6 million, or just 1.3% of the Company's debt investment portfolio at fair value.

The following table shows the distribution of the Company's loan and equipment financing investments on the 1 to 5 investment risk rating scale at fair value as of September 30, 2021 and December 31, 2020 (dollars in thousands):

As of September 30, 2021, and in line with the second quarter of 2021, the Company's loan and equipment financing investments had a weighted average risk rating score of 3.1.

## **Notes Offering**

In August 2021, the Company closed a public offering of \$125 million in aggregate principal amount of 4.375% Notes due 2026 (the "2026 Notes"). The 2026 Notes are unsecured and bear interest at a rate of 4.375% per year, payable semiannually, and will mature on August 24, 2026. The 2026 Notes may be redeemed in whole or in part at any time from time to time at the Company's option at par, plus a make-whole premium, if applicable. Trinity received net proceeds from the offering of approximately \$122 million, which it used to pay down the existing indebtedness outstanding under its credit agreement, to make investments in accordance with its investment objective and for general corporate purposes.

## Liquidity and Capital Resources

As of September 30, 2021, the Company had approximately \$206.8 million in available liquidity, including \$25.3 million in cash and cash equivalents. At the end of the period, the Company had \$181.5 million in available borrowing capacity under its credit facility subject to existing terms and advance rates and regulatory and covenant requirements.

As of September 30, 2021, Trinity's leverage was approximately 77.7% as compared to 64.5% as of June 30, 2021. The increase in the leverage ratio was primarily attributable to borrowings under the 2026 Notes.

Subsequent to quarter-end, on October 27, 2021, the Company entered into a new \$300 million credit facility led by KeyBank. KeyBank is leading the credit facility with a commitment of \$75 million, and the credit facility can accordion to \$300 million as additional lenders are added to the lending syndicate, subject to the facility's credit agreement. The credit facility has a term of five years, comprised of a three-year revolving period and a two-year amortization period. Borrowings under the facility will bear interest at a rate equal to the one-month London Interbank Offered Rate ("LIBOR") plus 3.25%, with the ability to scale down to one-month LIBOR plus 2.85% based on certain factors, including the number and composition of the loans in the collateral pool. The KeyBank credit facility features variable advance rates of up to 60% on eligible loans and up to 64% on eligible equipment
